ABDULLAH ASIM

FRONTEND DEVELOPER

PROFILE

FRONTEND Developer with 2+ years of experience in designing and developing responsive, user-centric, and performance-optimized web applications. Highly skilled in React.js, Next.js, and the MERN stack (MongoDB, Express.js, React.js, Node.js). Adept at transforming complex requirements into seamless user experiences through clean and maintainable code.

Demonstrates a strong understanding of modern UI/UX principles, component-based architecture, and responsive design techniques using Tailwind CSS and Material UI. Experienced in integrating RESTful APIs,

Passionate about continuous learning and delivering high-quality digital products that not only meet business goals but also enhance user satisfaction. Well-versed in version control systems like Git, and deployment platforms such as Vercel and Netlify.

WORK EXPERIENCE

Pluton

FRONTEND Developer

MARCH 2024 - OCTOBER 2024

- Developed and maintained responsive, high-performance user interfaces using HTML, CSS, JavaScript, and modern frontend libraries like React.js, ensuring clean code and scalable architecture.
- Collaborated closely with backend developers and UI/UX designers to implement cohesive and visually compelling web applications aligned with business requirements and design mockups.
- Optimized application performance and load times through best practices such as code splitting, lazy loading, and image optimization, while maintaining cross-browser compatibility and accessibility standards.
- Implemented fully responsive designs to deliver seamless and consistent user experiences across desktop, tablet, and mobile devices, following mobile-first design principles.

TechSinc

NOVEMBER 2024 - MAY 2025

MERN stack Developer

- Built dynamic and interactive user interfaces using React.js, Tailwind CSS, and TypeScript, focusing on usability and design consistency across the application.
- Integrated RESTful APIs and managed frontend data flow using tools like Axios and React Query to ensure seamless interaction with backend services.
- Implemented complete CRUD operations across multiple modules, optimizing workflows and enhancing the overall functionality of the application.
- Collaborated in an agile environment with designers and backend developers, translating product requirements into clean, scalable, and maintainable code.
- Maintained responsiveness and cross-browser compatibility, delivering mobile-friendly UI designs that worked consistently across all major devices and browsers.

Freelancing, remote

AUGUST 2023 - PRESENT

MERN stack Developer

- Built dynamic and interactive user interfaces using React.js, Tailwind CSS, and TypeScript, focusing on usability and design consistency across the application.
- Integrated RESTful APIs and managed frontend data flow using tools like Axios and React Query to ensure seamless interaction with backend services.
- Implemented complete CRUD operations across multiple modules, optimizing workflows and enhancing the overall functionality of the application.
- Collaborated in an agile environment with designers and backend developers, translating product requirements into clean, scalable, and maintainable code.
- Maintained responsiveness and cross-browser compatibility, delivering mobile-friendly UI designs that worked consistently across all major devices and browsers.

EDUCATION

2022 - 2026

VIRTUAL UNIVERSITY

• Under graduation in BBIT

2018 - 2020

JINNAH GOVERNMENT COLLEGE

pre-engineering

2016 - 2018

THE PROGRAMMERS SCHOOL

• computer science
